

To All TPAAA Members

We understand that the exclusion of non vaccinated members from gym use is a significant challenge. The station gyms are built through member contributions to the TPAAA and individual station gym fees and not by the Police Service.

This said, however, the Service owns the physical space the gym occupies and based on that, we have no recourse but to abide by its rulings.

The TPAAA Executive is opposed to the gyms being used as leverage to have members vaccinated but we function under the good graces of the Toronto Police Service.

We will continue to provide our input when asked through the fitness committee and strenuously voice our opposition to this measure the Service has undertaken.
